

*Predictable Control for
High Performance Drifting*

Giti Compete
DRIFT 1

Giti Compete
DRIFT 1

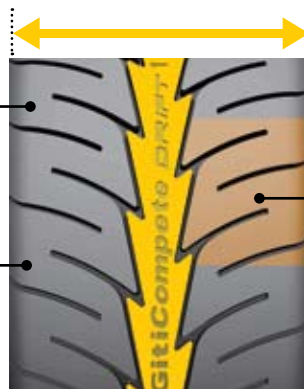

A Proven Choice for Drifting Champions

1 Drifting Oriented Tread Pattern Design Engineered to the finest details

Wider contact patch provides high speed grip for precise cornering and drifting.

V-shaped center grooves maximize cornering stability and control at high speeds.

Exclusive drifting tread compound provides outstanding grip at high temperature

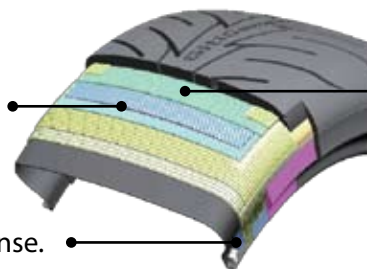

Large shoulder blocks provide high-speed cornering grip and create predictable shifts and skids.

2 Precision Handling Casing

Double steel belt increases tread rigidity, reduces tread deformation, and provides excellent predictable control.

Extra hard apex improves steering response.

Jointless cap ply ensures high speed performance and handling stability.
